Independent Auditors' Report

Board of Directors
Kentucky Higher Education Student Loan Corporation
Louisville, Kentucky

We have audited the accompanying financial statements of each major fund of the Kentucky Higher Education Student Loan Corporation (the "Corporation"), a blended component unit of Kentucky Higher Education Assistance Authority, (a component unit of the Commonwealth of Kentucky), as of and for the year ended June 30, 2005, which collectively comprise the Corporation's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each major fund of the Corporation as of June 30, 2005, and the respective changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 2 through 7 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 23, 2005, on our consideration of the Corporation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Kentucky Higher Education Student Loan Corporation

June 30, 2005

The Kentucky Higher Education Student Loan Corporation (the "Corporation") is an independent *de jure* municipal corporation established by the Kentucky General Assembly in 1978 to provide a loan finance program for post-secondary students in the Commonwealth of Kentucky (the "Commonwealth"). The Corporation functions as a lender of student loans, making loans to parent and students directly; a servicer of student loans; and a secondary market for the purchase of student loans from other lenders. The Corporation funds the origination or acquisition of these student loans by periodically issuing bonds and notes under various debt agreements, including its three general bond resolutions. The Corporation also services education loans and collects defaulted education loans. The Corporation's services and loans are marketed under the registered service mark "The Student Loan PeopleSM".

This section of the Corporation's annual financial report presents a discussion and analysis of the Corporation's financial performance for the fiscal year ended June 30, 2005. Please read it in conjunction with the Corporation's financial statements and the notes to the financial statements, which follow this section.

FINANCIAL HIGHLIGHTS AS OF JUNE 30, 2005

- The Corporation's total assets at year end were approximately \$1.4 billion, which is an increase of approximately \$276 million or 23% over the prior year.
- The Corporation's net student loans at year end were approximately \$1.2 billion, which is an increase of approximately \$229 million or 23% over the prior year.
- The Corporation's total revenue for the fiscal year ended June 30, 2005 was approximately \$125 million, which is an increase of approximately \$43 million or 53% from the prior fiscal year end.
- The Corporation's fee income for the fiscal year ended June 30, 2005 was approximately \$23 million, which is an increase of approximately \$4 million or 22% from the prior fiscal year end.
- The Corporation's interest expense for the fiscal year ended June 30, 2005 was approximately \$30 million, which is an increase of approximately \$16 million or more than double from the prior fiscal year end.
- The Corporation's total other operating expenses (excluding the provision for arbitrage liabilities and principal forgiveness) for the fiscal year were approximately \$52 million which is an increase of approximately \$13 million or 32% from the prior fiscal year end.
- The Corporation incurred approximately \$14 million in principal and interest forgiveness due to certain borrower benefit plans. This expense also reduced the excess yield on certain of the Corporation's outstanding bond obligations.
- During the year ended June 30, 2005, the Commonwealth's approved Biennial Budget required the Corporation to transfer funds to the General Fund and to the Kentucky Higher Education Assistance Authority (the "Authority") in support of various state tuition programs. Transfers of \$7,151,055 and \$7,800,000 were made to the Authority and the Kentucky State Treasury, respectively, during the year ended June 30, 2005.

- The Corporation's change in net assets after operating transfers for the fiscal year ended June 30, 2005 was approximately \$7.7 million, which is a decrease of approximately \$9 million or 54% from the prior fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Corporation's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied on an accrual basis. Under the accrual basis of GAAP, revenues are recognized in the period in which they are earned and expenses are recognized in the period in which they are incurred. These basic financial statements are separated into funds. These requirements, as well as certain governmental accounting pronouncements, require this financial statement presentation.

The three basic financial statements presented within the financial statements are:

Balance Sheet

This statement presents information regarding the Corporation's assets, liabilities and net assets. Net assets represent the total amount of assets less the total liabilities. The balance sheet classifies assets, liabilities and classifies net assets as current, noncurrent, restricted and unrestricted according to restrictions in each general bond resolution.

Statement of Revenues, Expenses and Changes in Net Assets

This statement presents the Corporation's interest income, cost of funds, operating expenses and changes in net assets for the fiscal year.

Statement of Cash Flows

The Corporation's statement of cash flows is presented using the direct method of reporting, which reflects cash flows from operating, investing, noncapital and capital financing activities.

FINANCIAL ANALYSIS OF THE CORPORATION

The Corporation's total net assets at June 30, 2005 were approximately \$1.4 billion, which is an increase of approximately \$276 million or 23% over June 30, 2004. Components of the Corporation's balance sheets as of June 30, 2005 and 2004 were as follows:

	<u>2005</u>	<u>2004</u>	<u>Increase (Decrease)</u>	<u>%</u>
Assets				
Loans	\$ 1,207,632,746	\$ 978,578,931	\$ 229,053,815	23 %
Capital Assets	3,427,909	2,329,161	1,098,748	47 %

Liabilities				
Short and Long-Term	\$ 1,297,250,000	\$ 1,045,450,000	\$ 251,800,000	24 %
Other Liabilities	<u>43,309,246</u>	<u>27,144,220</u>	<u>16,165,026</u>	60 %
Total Liabilities	<u>1,340,559,246</u>	<u>1,072,594,220</u>	<u>267,965,026</u>	25 %
Net Assets				
Invested in Capital	3,427,909	2,329,161	1,098,748	47 %
Restricted	84,129,098	86,061,379	(1,932,281)	(2) %
Unrestricted	<u>20,447,258</u>	<u>11,954,893</u>	<u>8,492,365</u>	71 %
Total Net Assets	<u>108,004,265</u>	<u>100,345,433</u>	<u>7,658,832</u>	8 %
Total Liabilities and Net Assets	<u><u>\$ 1,448,563,511</u></u>	<u><u>\$ 1,172,939,653</u></u>	<u><u>\$ 275,623,858</u></u>	23 %

The increase noted above in the Corporation's total assets is the continuation of a trend of growth in prior years. Total assets grew from approximately \$1.173 billion at June 30, 2004 to approximately \$1.449 billion at June 30, 2005. Net loans outstanding totaled \$1.208 billion at June 30, 2005, a \$229 million increase over June 30, 2004. This increase included \$430 million in loan acquisitions (both originations and purchases) offset by borrower payments, consolidation loan payments and principal forgiveness on the loans. Other assets increased by \$45 million as a result of increased cash and investment balances at year end. These balances were increased due to higher amounts of borrower payments from a maturing loan portfolio as more borrowers go into repayment and due to increased subsidy payments from the United States Department of Education ("USDE"). During fiscal year 2005, the Corporation drew down approximately \$73 million from the 2000 Line of Credit and issued \$350 million in bonds to acquire student loans. The amount was offset by approximately \$171 million in bond maturities and repayments on the line of credit. This increase was the largest component of the Corporation's increase in its total liabilities. Other liabilities increased \$16 million, primarily as a result of an increase in the allowance for arbitrage liabilities.

Kentucky Higher Education Student Loan Corporation

June 30, 2005

Interest income, which includes interest on loans and investments, increased by 58% due to certain loans qualifying for the minimum 9.5% yield allowed under special allowance rules. The average yield from interest on loans in FY 2005 was 8.62% versus 6.74% in FY 2004. Given the rising interest rate environment, investment yields increased from .81% in FY 2004 to 1.71% in FY 2005. Fee income increased due to growth of a portfolio for a large client for whom the Corporation performs third-party servicing activities. Interest on debt more than doubled from the prior year due to rising interest rates on the variable rate bonds outstanding. Average rates rose from 1.32% in FY 2004 to 2.30% in FY 2005. Certain borrower benefits resulted in loan and interest forgiveness of approximately \$14 million which had the effect of reducing the excess yield on certain of the Corporation's outstanding bond obligations. Other operating expenses increased 32% due to costs related to the growing loan portfolio as the Corporation adds loan and servicing volume.

CONDITIONS AFFECTING FINANCIAL POSITION

At June 30, 2005, the Corporation was servicing and committed to purchase student loans from other lenders with a principal balance of approximately \$33.4 million. The total portfolio of student loans that the Corporation owns, services for other lenders, and collects was approximately \$7.1 billion at June 30, 2005. This is an increase of approximately \$1.4 billion or 25% higher than as of June 30, 2004.

The Corporation continues to experience significant growth in all aspects of its operations and the Corporation's fiscal year 2006 budget reflects continued growth. Efforts to increase the Corporation's lending market share in the Commonwealth and the continued high rate of growth in the client servicing portfolio is expected to promote the sustained growth pattern for the Corporation throughout the coming fiscal year. The Corporation has added additional staff to perform the additional work associated with this significant growth and its anticipated expense increase for fiscal year 2006 reflect the additional costs expected to be incurred as a result of the additional student loan volume.

Available and affordable funds from debt financings enable the Corporation to meet its lending demand for loans originated and purchased. Historically, the Corporation has issued primarily tax-exempt debt. However, since 1997 the Corporation has supplemented its tax-exempt funding with taxable debt at a higher interest cost. Annually, the Corporation receives an allocation from the Commonwealth's Private Activity Bond Allocation committee which authorizes the amount of tax-exempt debt that the Corporation can issue. As of June 30, 2005, the Corporation's tax-exempt debt outstanding was 45% of the total bonds outstanding. In addition to funds provided by debt issuances, the Corporation also has a \$100 million line of credit with Bank of America for loan acquisitions. This line of credit provides additional liquidity in the event that loan demand exceeds the available funds from debt issuances. The Corporation has secured this line of credit through December 31, 2005 and expects to renew or replace this funding source to ensure available funds throughout fiscal year 2006. The Corporation and its trustee monitor the maturities of all debt instruments and the appropriate levels in the debt service and debt service reserve accounts. There are no scheduled bond maturities in fiscal year 2006.

Certain loans financed through bonds dated prior to October 1, 1993 receive a 9.5% minimum rate of return based on provisions of the Higher Education Act of 1965, as amended, and related interpretations by the USDE. However, beginning October 1, 2004 and ending on December 31, 2005, any new loans acquired or originated using the proceeds of tax exempt obligations originally issued prior to October 1, 1993, if either the underlying bonds are refunded or loans are refinanced, will no longer receive the 9.5% minimum rate of return. Possible additional changes in legislation and/or USDE interpretations in the future could cause this benefit to be further reduced or eliminated; however, management does not expect any such changes to be retroactive.

The Commonwealth's approved Biennial Budget required the Corporation to transfer funds to the General Fund and to the Authority in support of various state tuition programs in fiscal years 2005 and 2006. The Corporation is required to make transfers of \$66,448,100 that will be made from released fund equity and net income during the year ending June 30, 2006.

Note 1--Description of Business and General Bond Resolutions

The Kentucky Higher Education Student Loan Corporation (the "Corporation") is an independent *de jure* municipal corporation established by the Kentucky General Assembly in 1978 to provide a loan finance program for post-secondary students in the Commonwealth of Kentucky (the "Commonwealth"). Governed by a Board of Directors, the Corporation is authorized to finance loans for students attending eligible post-secondary institutions, service and collect education loans, and issue bonds and notes not to exceed \$5 billion in order to carry out its corporate powers and duties. The Corporation's education finance, servicing and collection activities include: (i) the origination and secondary market acquisition of education loans originated pursuant to the Federal Family Education Loan Program ("FFELP"); (ii) the financing of FFELP Loans; (iii) the servicing of FFELP Loans and of other education loans, and (iv) the collection of FFELP Loans and other education loans for other holders on a commission or cost reimbursement basis. The FFELP student loans held, serviced and collected by the Corporation include Federal Stafford Loans ("Stafford"), Unsubsidized Stafford Loans ("Unsubsidized Stafford"), Federal Supplemental Loans for Students ("SLS"), Federal Parent Loans for Undergraduate Students ("PLUS"), and Federal Consolidation Loans ("Consolidations").

The FFELP loans held by the Corporation are insured by the Kentucky Higher Education Assistance Authority (the "Authority"), as the state guaranty agency, or the U. S. Department of Education (USDE). Loans made prior to October 1, 1993, are 100% insured. Loans made on or after October 1, 1993, are 100% insured against borrowers' death, disability, or bankruptcy and 98% insured against borrowers' default.

The Corporation's General Bond Resolutions ("GBR"s) and separate Series Resolutions for issue of revenue bonds contain provisions establishing funds and accounts for the segregation of assets and provisions restricting the use of the proceeds of bonds and other funds received.

As of June 30, 2005 the Corporation serviced approximately \$1.2 billion outstanding principal amount of FFELP Loans which are pledged pursuant to the 1983 GBR, the 1997 GBR, the 2000 Line of Credit Trust Agreement or the 2004 GBR and approximately \$5.8 billion of FFELP Loans and other education loans on behalf of other holders, including holders with national lending operations. The majority of such education loans are being serviced by the Corporation pursuant to servicing agreements. These agreements do not provide for the acquisition by the Corporation of the education loans serviced. As a servicer of FFELP loans, the Corporation collects student loan remittances and subsequently disburses these remittances to the appropriate lending entities. In addition, the Corporation currently collects approximately \$162 million of FFELP Loans and other education loans for other holders on a commission or cost reimbursement basis. The Corporation's obligations pursuant to such servicing and collection agreements are without recourse to assets pledged to collateralize any Corporation financings.

Note 2--Summary of Significant Accounting Policies

(a) Reporting Entity

The Corporation is a blended component unit of the Authority (a component unit of the Commonwealth of Kentucky).

Note 2--Summary of Significant Accounting Policies--Continued

(b) Basis of Presentation

The Corporation's basic financial statements are prepared in accordance with Governmental Accounting Standards Board ("GASB") Statement No. 34, "Basic Financial Statements and Management Discussion and Analysis - for State and Local Governments". The basic financial statements are comprised of fund financial statements and notes to the financial statements. The fund financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to state government entities, which provide that financial activities operated similarly to private business enterprises be presented as separate proprietary funds and that accounting results be organized by funds to account for specific activities consistent with legal and operating requirements. The Corporation's funds include the Education Finance Funds and the Operating Fund. The Education Finance Funds include loan programs funded individually under financings under the 1983 General Bond Resolution, the 1997 General Bond Resolution, the 2004 General Bond Resolution and the Line of Credit.

Financial activities operated similarly to private business enterprises and financed through fees for servicing and defaulted loan collection are presented under the Operating Fund. The Corporation follows all applicable Governmental Accounting Standards Board pronouncements, as well as Financial Accounting Standards Board pronouncements and Accounting Principles Board Opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. The Corporation uses the accrual basis of accounting.

(c) Loan Losses

As discussed in Note 1, the Corporation's FFELP loans are guaranteed by the Authority. Management of the Corporation believes that the Authority will be able to honor all default claims submitted by the Corporation. However, the Corporation records a provision for loan losses based upon its expected default claims with respect to 98% insured loans and for loans with certain loan servicing violations. The allowance for loan losses on FFELP loans was \$1,020,207 for loan principal and \$161,765 for accrued interest as of June 30, 2005. Furthermore, the Corporation is required to purchase loans owned by third-party customers with certain loan servicing violations. As of June 30, 2005, the allowance for third-party servicing loan losses was \$1,690,732 for loan principal and \$176,037 for accrued interest.

(d) Investments

Investments, which consist principally of securities of the federal government or its agencies and commercial paper, are reported at fair market value. Fair market value is determined by using quoted market prices as of the last day of the fiscal year.

Note 2--Summary of Significant Accounting Policies--Continued

(e) Interest Income on Loans

The Corporation earns interest income on loans from three sources: (1) the USDE for subsidized interest earned while certain students are in school; (2) special allowance subsidies (discussed in Footnote 6); and (3) the borrowers. All interest is recorded when earned and is shown in the financial statements net of the interest related portion of the provision for loan losses.

(f) Servicing Fees

The Corporation's fees for servicing loans held by third parties are recorded as servicing fee revenue when earned. These third-party loans are not presented on the balance sheet as they are not owned by the Corporation.

(g) Income Taxes

The Corporation is an independent *de jure* municipal corporation and political subdivision of the Commonwealth of Kentucky and is therefore not subject to federal or state income taxes.

(h) Deferred Bond Issuance Costs

Bond issuance costs are deferred and amortized over the life of the bonds, utilizing the bonds outstanding method, which approximates the effective interest method.

(i) Deferred Loan Purchase Premiums and Deferred Loan Origination Costs

Loan purchase premiums and certain origination costs are deferred and amortized over the estimated life of the loans acquired or originated, based on projected balances outstanding, which approximates the effective interest method.

(j) Interfund Eliminations

Receivables and payables among the funds of the Corporation are eliminated in the balance sheet.

(k) Property and Equipment

Office furnishings, equipment, and system development costs are recorded at cost and depreciated over their estimated useful lives using the straight-line method.

(l) Statement of Cash Flows

For the statement of cash flows, the Corporation considers cash and cash equivalents to include money market funds and highly liquid investments which mature within one month of purchase.

(m) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Note 3--Cash, Cash Equivalents and Investments

The Corporation has adopted the provisions of GASB Statement No. 40, "Deposits and Investment Risk Disclosures". This statement adds certain additional disclosures about cash and investments, including common areas of investment risk.

The Corporation's deposit and investment policy complies with the underlying bond resolution requirements. In accordance with those bond resolutions, all deposits and investments meet the requirements and approval of the line of credit and bond insurance providers. Additionally, such requirements mandate specific classes of investment vehicles including bank time deposits, certificates of deposit, direct obligations of the United States of America unconditionally guaranteed by the United States of America, indebtedness issued by certain Federal agencies, collateralized repurchase agreements or investment funds secured by obligations of the United States of America with collateral held by or at the direction of the trustee.

At June 30, 2005, the Corporation had \$166,274,722 of cash and cash equivalents. Of this amount, \$200,000 was covered by insurance provided by the Federal Deposit Insurance Corporation ("FDIC"). The remaining balance was uninsured and uncollateralized, and was invested in money market mutual funds or repurchase agreements supported by U. S. government obligations.

At June 30, 2005, the Corporation had \$6,663,994 of investments, consisting of obligations of U.S. government sponsored agencies. The average effective duration (i.e. maturity) of the Corporation's portfolio is less than two months.

(a) Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Corporation's deposits may not be returned to it. The Corporation does not have a formal deposit policy for custodial credit risk, however, accounts are set up with overnight sweep accounts so that cash is invested in short term, liquid investments daily to minimize the amount of cash not covered by insurance provided by the FDIC.

Note 3--Cash, Cash Equivalents and Investments--Continued

(b) Custodial Credit Risk – Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Corporation will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Corporation's investments are held in the name of the Corporation by a trustee.

(c) Concentration of Credit Risk

The Corporation has no restrictions on the amount it may invest in any one issuer of the \$6,663,994 of investments. Approximately 50% of the Corporation's investments are in obligations of the Federal National Mortgage Association and 50% in obligations of the Federal Home Loan Mortgage Corporation.

(d) Interest Rate Risk

The Corporation does not have a formal policy limiting maturities of its investments (\$6,663,994 at June 30, 2005). However, as a matter of practice, the Corporation generally invests in instruments with a maturity of less than one year to manage its exposure to fair value losses from increasing interest rates,

Note 4--Loans

The Corporation originates, purchases and holds various types of student loans as described in Note 1. The terms of these loans, which vary on an individual basis depending upon loan type and the date the loan was originated, generally provide for repayment in monthly installments of principal and interest over a period of up to thirty years for consolidation loans and generally up to ten years for other loans. The repayment period begins after a grace period of six months following graduation or loss of qualified student status for the Subsidized and Unsubsidized Stafford loans. The repayment period for Consolidation, SLS and PLUS loans begins within 60 days from the date the loan is fully disbursed. Interest rates on student loans ranged from 2.77% to 12% for the fiscal year ended June 30, 2005 depending upon the type and date of origination of the individual loan.

Note 4--Loans--Continued

Loans consist of the following at June 30, 2005:

Stafford – Subsidized	\$ 477,797,280
Stafford – Unsubsidized	359,444,642
PLUS/SLS	29,051,940
Consolidation	342,483,817

Net deferred premium and loan cost	<u>20,433,681</u>
 Net Loans and Deferred Premium and Loan Costs	 <u><u>\$ 1,228,066,427</u></u>

All student loans are initially guaranteed as to principal and accrued interest. In order for the loans to be or remain guaranteed, certain due diligence requirements in loan servicing must be met. As of June 30, 2005, \$2,470,548 of student loans were no longer considered guaranteed due to violation of due diligence requirements.

The Corporation withholds certain origination fees from the loan disbursements on FFELP loans to the borrowers and remits these fees to USDE. The amount of the origination fees is based on a percentage of the gross loan amount.

The Corporation is also required to pay to USDE certain lender and rebate fees. The amount of the Lender Fees is based on a certain percentage of the gross loan amount on all FFELP loans originated after October 1, 1993 and a certain percentage of the carrying value of the Consolidation loans.

Generally, all student loans of the Corporation are pledged as collateral for the various obligations of the Corporation.

Note 6--Special Allowance

The U.S. Department of Education pays a special allowance to the Corporation after the end of each quarter representing supplemental interest on outstanding, insured loans. Certain FFELP loans disbursed during the period from January 1, 2000 through June 30, 2005, receive special allowance at a rate based upon the average of the bond equivalent rates of the 3-month commercial paper rate as reported by the U.S. Federal Reserve. Other eligible loans receive special allowance based on the 91-day U.S. Treasury bill rates. Certain loans financed through bonds dated prior to October 1, 1993 receive a 9.5% minimum rate of return based on provisions of the Higher Education Act of 1965, as amended, and related interpretations by the USDE. However, beginning October 1, 2004 and ending on December 31, 2005, any new loans acquired or originated using the proceeds of tax exempt obligations originally issued prior to October 1, 1993, if either the underlying bonds are refunded or loans are refinanced, will no longer receive the 9.5% minimum rate of return. Possible additional changes in legislation and/or USDE interpretations in the future could cause this benefit to be further reduced or eliminated; however, management does not expect any such changes to be retroactive.

Note 9--Line of Credit

The Corporation is a party to a Line of Credit Agreement with Bank of America, N.A., providing for advances to the Corporation not to exceed an aggregate outstanding principal balance of \$100 million. The borrowing period ends December 31, 2005, and can be extended at the discretion of both parties through December 31, 2006. During the year ended June 30, 2005, the Corporation drew down \$73,000,000 and made principal payments of \$114,280,000 on this line of credit. At June 30, 2005, there were no advances outstanding.

Note 10--Allowance for Arbitrage Liabilities

Certain of the Corporation's tax-exempt bond issues subject the Corporation to potential arbitrage liabilities under U.S. tax law. Arbitrage liabilities, under current federal income tax law regarding tax-exempt bond issues, consist of three types; (1) yield adjustment payments, (2) forgiveness and (3) arbitrage rebate. At June 30, 2005, the Corporation is reporting a liability for yield adjustment payments and forgiveness of \$29,829,244 and for arbitrage rebate of \$62,173.

The determination of excess yield on acquired purpose investments is cumulative over the life of the applicable bond series, as is the determination of arbitrage rebate on non-purpose investments, except for variable rate bonds for which arbitrage rebate is generally determined for each five-year period without retroactivity.

Note 10--Allowance for Arbitrage Liabilities--Continued

Yield adjustment payments, which also relate to yield restriction on acquired purpose investments, are applicable to the 1991 Series D & E Bonds, 1996 Series A, Subordinate Series 1997B, Senior Series 1998B, Senior Series 1999B, Senior Series 2000B, Senior Series 2001B Bonds, and any future issues except certain refunding issues. The allowable yield is 2% above the bond yield (arbitrage yield), with the federal special allowance included in income. The loss of tax-exempt status may be avoided by rebating the excess yield to the U.S. Treasury every 10 years, and upon final maturity of the bonds.

Forgiveness is applicable to the 1991 Series B & C, 1993 Series A, B & C, 1994 Series A & B, 1995 Series A, B & C, 1996 Series B, and 1997 Series A, B, C, & D bonds. In general, a yield restriction is imposed on acquired purpose investments, designating the allowable yield as 1.5% or 2.0% above the bond yield (arbitrage yield). The loss of tax-exempt status may be avoided by partial forgiveness of the applicable student loans. Forgiveness can be applied upon maturity of the bonds or as otherwise prescribed by the bond resolutions.

Arbitrage rebate is applicable to all of the Corporation's tax-exempt bonds except the 1985 Series A. With certain limited exceptions, income earned on non-purpose investments (investments other than student loans), which exceeds the bond yield (arbitrage yield), must be rebated to the U.S. Treasury. Payments of at least 90% are due every five years after the year of issuance, and upon final maturity of bonds.

Note 11--Credit and Liquidity Facilities and Bond Remarketing

The 1991 Series E and 1996 Series A Bonds are collateralized with Standby Bond Purchase Agreements, pursuant to which Landesbank Hessen-Thüringen Girozentrale will purchase any bonds not remarketed. The 1991 Series E Bonds and the 1996 Series A Bonds also have a Municipal Bond Insurance Policy issued by AMBAC Indemnity Corporation and MBIA Insurance Corporation, respectively, which collateralizes payment of principal and interest on the bonds. The Standby Bond Purchase Agreements expires December 1, 2011 for the 1991 Series E Bonds and December 31, 2015 for the 1996 A Bonds. The AMBAC Municipal Bond Insurance Policy extends through the term of the 1991 Series E Bonds, December 1, 2011 and the MBIA Municipal Bond Insurance Policy extends through the term of the 1996 Series A Bonds, June 1, 2026.

The Corporation pays certain fees with respect to its variable rate bonds to auction agents, broker dealers, market agents, remarketing agents, and tender agents for remarketing bonds or conducting auctions of bonds. These arrangements are generally cancelable with prior notice by either party.

Note 12--Retirement Plan

The Corporation provides retirement benefits to all full-time employees through the Kentucky Retirement System ("KRS"). KRS is a multiple-employer, defined benefit plan sponsored by the Commonwealth of Kentucky, which provides retirement, disability, and death benefits. The Corporation contributed 5.89% of gross wages for the year ended June 30, 2005. The employees contributed 5% of their gross wages to the plan for the year ended June 30, 2005. Such rates are intended to provide for normal costs on a current basis, plus an amount equal to the amortization of unfunded past service costs over thirty years, using the level percentage of payroll method. These contribution rates are determined by the Board of Trustees of KRS each biennium. The payroll of employees covered by the retirement plan was \$12,400,209 for the year ended June 30, 2005. Total payroll for the year ended June 30, 2005 was \$13,474,028. KRS participants have fully vested interests after the completion of sixty months of service, twelve months of which are current service. The KRS contribution requirement for the year ended June 30, 2005 was \$1,349,301, which consisted of employer contributions of \$729,919 and \$619,382 from employees in 2005. Employer contributions for the years ended June 30, 2004 and 2003 were \$564,750 and \$358,009, respectively. Although separate measurements of assets and pension benefit obligation are not available for individual employers, KRS's annual financial report (which is a matter of public record) contains this information for KRS as a whole. It may be obtained from the KRS by writing to them at 1260 Louisville Road, Perimeter Park West, Frankfort, Kentucky 40601.
